

Klimchenkov.dev

Technology Partner for Software & Data

An external engineering function: architecture, product, data—built to run for years.

What we do

Architecture & product delivery • Data & analytics • Client communications • Trading systems

How we work

Goals & metrics → requirements → spec & architecture → staged delivery → quality & operations

Engagement

End-to-end project • Tech lead/architect • Support & evolution

Contact

30–40 min intro call: context, success criteria, next step.
